

I am writing to express my displeasure with the idea of the new LPFM and the effect it will have on several stations that are integral parts of this community. Specifically AIR 1 and K-Love. These 2 stations are almost all I ever listen to because of the quality of the programming and the importance they place on "family" oriented music listening. What better "public service interest" could a station exhibit. Please take this into consideration when determining the future of the proposed LPFM.
